

Product Name: 1000 µg/mL Magnesium

(Contd. of page 2)

- Conditions for safe storage, including any incompatibilities
- Storage
- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end uses: No further relevant information available.

8 Exposure control/personal protection

- Additional information about design of technical systems: No further data; see section 7.
- Control parameters
- Components with limit values that require monitoring at the workplace:
- The provision does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- Additional information: The lists that were valid during the creation were used as basis.
- Exposure controls
- Personal protective equipment:
- General protective and hygienic measures:
- Keep away from food/drink, beverages and feed
- Immediately remove all soiled and contaminated clothing
- Wash hands before and after the end of work
- Avoid contact with the eyes
- Avoid contact with the eyes and skin
- Respiratory protection: Not required
- Protection of hands:

Protective gloves

- The glove material has to be impermeable and resistant to the product the substance the preparation.
- Due to missing tests no recommendation to the glove material can be given for the product the preparation the chemical mixture.
- Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
- Material of gloves
- The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.
- The product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
- Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- Eye protection:

Tightly sealed goggles

9 Physical and chemical properties

Information on basic physical and chemical properties	
General Information	
- Appearance:	Liquid
- Form:	According to product specification
- Color:	Characteristic
- Odor:	No applicable
- Odour Threshold:	No applicable
- pH-value:	No applicable
- Change in condition	Undermined
- Melting point/Melting range:	100 °C (212 °F)
- Boiling point/Boiling range:	No applicable
- Flash point:	No applicable
- Flammability (solid, gaseous):	No applicable
- Decomposition temperature:	No applicable
- Ignition temperature:	Product is not self-igniting
- Danger of explosion:	Product does not present an explosion hazard

(Contd. on page 4)

Product Name: 1000 µg/mL Magnesium

(Contd. of page 3)

- Explosion limits:	Not applicable
- Lower:	Not applicable
- Upper:	Not applicable
- Vapor pressure at 20 °C (68 °F):	23 hPa (17.3 mm Hg)
- Density at 20 °C (68 °F):	1.0108 g/cm³ (8.43513 lb/gal)
- Relative density:	Not applicable
- Vapor density:	Not applicable
- Evaporation rate:	Not applicable
- Solubility in / Miscibility with	Fully miscible
- Water:	
- Partition coefficient (n-octanol/water):	No applicable
- Viscosity:	No applicable
- Dynamic:	No applicable
- Kinematic:	No applicable
- Suboat content:	97.9 %
- Water:	0.00 %
- VOC content:	0.1 %
- Solids content:	0.1 %
- Other information:	No further relevant information available.

10 Stability and reactivity

- Reactivity No further relevant information available.
- Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- Possibility of hazardous reactions No dangerous reactions known.
- Conditions to avoid No further relevant information available
- Incompatible materials: No further relevant information available
- Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

Information on toxicological effects	
- Acute toxicity:	
- LD ₅₀ values that are relevant for classification:	
- 7697-37-3 nitric acid	
- Inhalative LC50/4 h: 3.65 mg/l (ATE)	
- Primary irritant effect:	
- on the skin: Irritant to skin and mucous membranes.	
- on the eye: Irritating effect.	
- Sensitization: No sensitizing effects known.	
- Additional toxicological information:	
- The product shows the following dangers according to internally approved calculation methods for preparations:	
- Irritant	
- Carcinogenic category:	
- IARC (International Agency for Research on Cancer)	
- None of the ingredients is listed	
- NTP (National Toxicology Program)	
- None of the ingredients is listed	
- OSHA-Ca (Occupational Safety & Health Administration)	
- None of the ingredients is listed	
12 Ecological information	
- Toxicity	
- Acute toxicity: No further relevant information available.	
- Persistence and degradability No further relevant information available.	
- Behavior in environmental systems:	
- Bioaccumulative potential No further relevant information available.	
- Mobility in soil No further relevant information available.	

(Contd. on page 5)

Printing date: 07/26/2023

Reviewed on: 07/26/2023

Product Name: 1000 µg/mL Magnesium

(Contd. of page 4)

- Additional ecological information:**
- General notes:
Water hazard class I (Self-assessment): slightly hazardous for water.
Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
 - Results of PBT and vPvB assessment:
PBT: Not applicable.
vPvB: Not applicable.
 - Other adverse effects: No further relevant information available.

13 Disposal considerations

- Waste treatment methods:
Recommendation: Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
- Undeclared packagings:
Recommendation: Disposal must be made according to official regulations.
- Recommended cleaning agent: Water, if necessary with cleaning agents.

GHS07

Signal word: Warning

Hazard statements

H315 Causes skin irritation.

H319 Causes serious eye irritation.

Precautionary statements

P260

Wash thoroughly after handling.

P280

Wear eye protection / face protection.

P302+P352

If on skin: Wash with plenty of water.

P321+P331+P338

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P332+P313

Take off contaminated clothing and wash it before reuse.

P362+P364

If eye irritation persists: Get medical advice/attention.

P337+P313

If eye irritation persists: Get medical advice/attention.

Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
